

# - Caddx Naked Vista -

## ⚠ NOTICE

Removal of the heat sink eliminates weight, but may cause overheating of the unit. Please attention to the ambient temperature or use electric fan to assist in cooling. Overheating may cause the upgrade to fail and not power on properly and damage the unit. If the unit damage due to the overheating, you will not be able to enjoy free support services

## Linking

1. Power on the vista and the DJI FPV Goggles.
2. Press the link button on the vista and the goggles.
3. The linking status indicator of the vista turns solid green. The goggles stop beeping when successfully linked and the video display is normal.
4. Power on the vista and the DJI FPV Remote Controller
5. Press the link button on the vista, and then press the record button, C button, and right dial on the remote controller simultaneously.
6. Both the linking status indicators turn solid green when successfully linked.

When ready to link, the devices will give the following indication:  
Vista: the linking status indicator turns solid red.

Goggles: the goggles beep continually.

Remote controller: the remote controller beeps continually and the status indicator blinks blue.
